On June 13, 2023, it was announced that the shareholders of Value Partners Group Inc. (VPGI) (through a designated representative), Great-West Lifeco Inc. (Lifeco) and a wholly-owned subsidiary of The Canada Life Assurance Company (Newco) had entered into a share purchase agreement pursuant to which Lifeco and Newco will acquire VPGI, the parent company of Value Partners Investments Inc. (the Manager), the investment fund manager of the Fund (the Transaction). The Transaction will result in the indirect acquisition of the Manager. The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see "What are the Risks of Investing in this Pool?" section of the Fund's simplified prospectus.
